Dear Friends:

We are trying to complete our reports on our recent concert held at the Newark Arts High School. It has been my intention to call at your home for your report on tickets. The volume of tickets distributed in Newark and the immediate vicinity has made it difficult to visit those cities which are more removed from Newark and where there are fewer tickets.

We should appreciate it very much if you will mail us a report on your tickets for the concert at the earliest possible moment. We shall hope to hear from you soon.

The interest in the School indicated by your efforts to make the concert a success is appreciated by, and encouraging to, all of us.

Very truly yours,

W. R. Valentine, Jr.
